Aron Quist
HayDay Farms
Blythe, CA

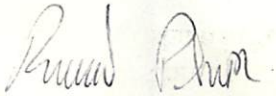

Dear Aron:

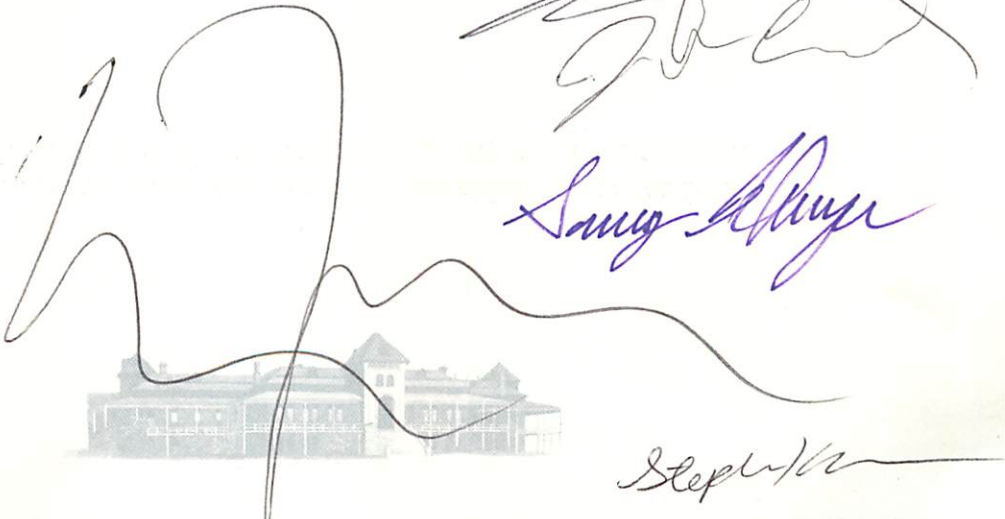

We would like to thank you for a highly informative talk about irrigation management in the Palo Verde Irrigation District in general and at HayDay in particular. We found the entire visit to HayDay very interesting and we genuinely appreciate your willingness to share information and time with us.

We hope some of us here at the "competing" school to your alma mater can find internships and even jobs with you and your companies in Blythe. Thanks again.

Sincerely,

Julia Matteo
